

K-Love Radio offers a vital service to my community. It is the only contemporary Christian station I can pick up. I am most thankful to have the decency and encouragement it provides compared to other stations I have to choose from in our area. The other Christian stations I can get are either preaching, black gospel, southern gospel or "old-timey" church, none of which I prefer. I believe there is enough interest in this station to justify keeping it on the air; after all, it is a listener-supported station that does not have to depend on the sell of ad time. From it's very presence you can see that "the people" are listening and want it to continue.

Thank you for your time.
